Wharf Marina Vessel Inspection Forms, Instructions, and Checklist

**Inspections of boats already in the Marina**
The boat owner has 15 days from date of Failure to correct problems and bring the boat in compliance of the WSMA Rules and Regulations and DCCR’s or the vessel must be removed from the marina at the end of the 15 days. Once reasons for the failure have been addressed the boat owner must schedule an inspection with the marina to meet their 15 day deadline obligations. Vessels not re-inspected and passed within the 15 days will be considered failed by default and will be required to be removed from the marina.

**Inspections of boats not yet in the Marina**
The boat owner must correct problems and bring the boat in compliance of the WSMA Rules and Regulations and DCCR’s and then and only then may contact the marina to reschedule an inspection with the marina. Vessels may not enter the marina until they receive a pass rating. Any boats brought into the marina prior to receiving a pass rating will be considered trespassing and appropriate legal action will be taken by the marina.

In accordance with the Wharf Marina DCCRs the final decision on whether or not the vessel is acceptable to the marina is up to the sole discretion of the Wharf Marina Board of Directors

**STEP 1:** Verify that your vessel will fit in the slip per DCCRs, Article VI, 3: "All boats shall be moored within the slips and no part of any boat, when moored, shall be allowed to extend into the common area channel or over any wharf or finger wharf." If the LOA of your vessel exceeds the dockable space within the slip, your vessel will not be approved.

**STEP 2:** Use the Contact Us form from the WSMA website to start the inspection process. You’ll receive a reply from the marina manager with his address and your inspector’s email address.

**STEP 3:** Reply with the following documents attached. Please provide in Adobe PDF format, if at all possible.

- **inspection request form** Fill out the information on page one of this document. Your inspector will fill out pages 2 through 4. *Please read the entire inspection report* to ensure your boat will pass. You’ll receive a copy via email upon completion of the inspection report.
- **current TPWD Certificate of Number card** with your name on it. If your card says “TITLED” on the bottom right, it will double as proof of ownership, otherwise:
- **proof of ownership** If your boat is *not* titled in Texas, you must provide one of the following: USCG vessel documentation, vessel title, notarized bill of sale, or notarized financial agreement.
- **copy of your current insurance** with $300k liability and $5k medical
- **signed copy of our standard lease agreement** if leasing. This is available under the “slips for lease” tab of [www.WharfMarinaClearLake.org](http://www.WharfMarinaClearLake.org).
- **picture of vessel.**

**Step 4:** Upon receipt of the above, your inspector will contact you to arrange the inspection. Your inspector will send this completed form to the marina manager along with a recommendation of pass or no pass.

**Step 5:** The marina manager will confirm everything is in order and give you authority to move your boat into the marina.

**Step 6:** There is a $75 inspection fee that will be billed to the slip owner by the Wharf Marina following the inspection.
Wharf Marina Vessel Inspection Request

Slip Owner Information:
Dock: ___________ Slip: ___________ Live Aboard ☐ Y ☐ N
Name: __________________________________________________________
